

EARLY CARE SAVES LIVES

Chest pain can be a symptom of a **HEART ATTACK**. You also can feel heart attacks in other ways. Learn the warning signs.

Women have **CHEST PAIN** as often as men when having a heart attack.

But women are more likely to have **3 or more other symptoms** as well.

CHEST PAIN CAN FEEL LIKE

Chest pressure, tightness, squeezing, or burning

Discomfort in your chest, shoulders, arms, back, neck or jaw

Pain that travels down one or both arms

Shortness of breath

Heartburn-like feeling

If you think you are having a heart attack, **DON'T DELAY.** Call 911 right away.

OTHER SYMPTOMS OF HEART ATTACK INCLUDE

- ▶ Nausea or vomiting
- ▶ Unusual tiredness
- ▶ Cold sweat
- ▶ Dizziness or weakness
- ▶ Anxiety
